# SUSTAINABILITY

The Lost Lands aims to be a leader in environmental sustainability. We invite you to join us in reducing the environmental impact of the festival. Here are some tips you can follow!

Place rubbish, food waste and compostable packaging in the clearly marked waste stations. All food stores are using compostable packaging.

Reduce waste where possible and utilise one of the reusable bottle or cup options on-site.

Use our wash stations at the main site and campgrounds for drinking vessels & utensils.

Enjoy our free water refill stations located around the main event site and campgrounds.

Work with our waste warriors to keep the festival gardens and campgrounds clean.

Leave no trace and take everything home with you.
